Digital citizenship is a key facet of being truly World Ready. It addresses the appropriate use of technology and the impacts of its use. A digital citizen is a person who obeys the legal rules about using digital technologies, and acts with respect and care for themselves, others and property. And in return, they expect the same respect to be shown to them.

A good understanding and application of digital citizenship principles is critical in any environment where you bring your own device (BYOD). You own your device so are responsible for how you use it and conduct yourself in the digital world.

This agreement relates to your behaviour and actions at School and beyond. Be mindful that your online interactions are most often an extension of School relationships and learning.

We want all students to be constantly mindful of how the world will see you through your digital footprint and actions.

In general, we are not listing rules; instead this agreement focuses on a set of behaviours and expectations. We want to help you understand your rights and responsibilities. For this reason, we’ll discuss this in class with all students and expect you to discuss it with your parents before you sign it with them.

The agreement is across our three key strands: Life, Learning and Leading.

They are incorporated in each of the behaviours below. We ask parents/carers to start a conversation with their children about each element to support the discussions we have at School.

Looking after me:

- I will only go on the computer when I have permission.
- I will only go to pages I am allowed to go to.
- I will only share pictures and stories about myself when my teacher tells me to.
- I will talk to my parents and teacher about all of my online friends.
- I will tell my teacher or parents if anyone is unkind to me on the computer.

Looking after others:

- I will only say nice things about people.
- I will ask before I share a picture or story about a person.
- I will only go to places that are nice and I will tell my parents or teacher if I go to a place that is nasty, unkind or rude.

Looking after stuff:

- I will not download movies, games or music.
- I will check that the information I get on the web is correct.
- I won’t leave rude or unkind messages on other people spaces.

By signing this agreement, I undertake to always act in a manner that is respectful to me and others, to act appropriately in a moral and ethical manner. I agree to follow the principles of digital citizenship outlined in this agreement and accept that failing to follow these will have consequences that may include removal of network access privileges or more severe consequences and legal penalties.
